Ausa to launch new telehandler at show
Barcelona, Spain
Wednesday, 25 Feb 2009

Spanish manufacturer Ausa will introduce its new telehandler at Intermat.

The new Tauralift T 276 H model has a 2,700 kilogram (5,920 pound) capacity and 6.1 metre (20 foot) reach height.

The T 276 H is powered by a Kubota V3600T turbo diesel engine and uses a permanent four-wheel drive hydrostatic transmission that produces a top speed of 24 km/h (14.9 mph).

The telehandler features a joystick for control of all movement, three steering modes, anti-vandal security system, hydraulic quick hitch and a tilting cabin to make maintenance easier.

Intermat is held every three years and is focused on the construction sector. There will be over 1,300 exhibitors from more than 40 countries at the event which will run over five days from Monday 20 to Saturday 25 April at the Nord Villepinte Exhibition Centre in France.
